Medical Officers Report for the Borough of Great Torrington for the Year 1894.

The area of the Borough is 3456 acres -
Population (last census) 3442.
There were 79 births - 38 boys. 41 girls.
There were 63 deaths - 4 under one year old.
Death rate per thousand 18.303312
Zymotic diseases were the cause of 9 deaths -
namely Scarletina 3, Dyspntheria 4. Puerperal Fever 2,
The Notification of Diseases Act is in force in the Borough -
During the past Year I have received 42 Notifications of Scarletina 24 of Dyptheria, 2 of Puerperal Fever and 1 of Erysipelas.
Out of the 63 deaths 31 were over 65 Years of age, 14 were over 25 and under 65 -

During the past year I have in company with Mr. Quick, Sanitary Inspector, inspected all the Slaughter Houses. Bakehouses and Dairies in the Borough and found them in a sanitary condition.
The Water supply during the past Year has been ample and good.

Signed Edward Morse L.R.C.P. L.R.C.S
